

# 2026 IAND FALLWORKSHOP

## Filling the Need: Advancing Food Security in Oncology Care

Location: Illinois State University, Normal, IL

Date & Time: Friday, August 28<sup>th</sup>, 2026

### Key Objectives:

- ✓ Recognize the prevalence and consequences of food insecurity among individuals affected by cancer
- ✓ Implement practical plant-forward nutrition recommendations that promote health while minimizing food costs.
- ✓ Explore affordable whole food-based enteral feeding solutions that support patient-centered nutrition care.
- ✓ Develop collaborative, interdisciplinary approaches to identify food insecurity and connect oncology patients with effective support services and community resources.
